

SARCCM OUC Team Held Internal Working Meeting Reaching Five Points of Consensus

To improve its organizational functioning and advance its recent works, the OUC team of SARCCM held an internal working meeting on November 1st, 2022, at OUC Laoshao Campus. During the meeting, the OUC operational team reached the following five points of consensus:

- SARCCM would hold the 2nd Symposium on Marine Spatial Planning and Coastal Management on November 6th, 2022, as scheduled, albeit changed to an online conference.
- SARCCM should enhance its communication and collaboration with relevant institutions at home and abroad, particularly those in Macao, Beijing, Shanghai, and Australia.
- SARCCM would initiate the compilation of a book dedicated to the 100th anniversary of OUC, to which end Professor Wang Xiao Hua would take the lead and organize SARCCM members and related scholars to contribute to the writing of each book chapter.
- SARCCM should improve its organizational functioning. To this end, SARCCM decided to add Dr. Hua Junyi, Associate Professor of the School of International Affairs and Public Administration of OUC, as a deputy secretary general. Also, SARCCM decided to create a new website, compile a brochure, and prepare some souvenirs. Accordingly, Dr. Jin Yongming, the OUC director of SARCCM, assigned each of these tasks to members of the operational team.
- SARCCM should further increase its research outputs and impacts through workshops, symposiums, research visits and communication.
